

Invitation to the 14th World Conference of the International Society for Gerontechnology (ISG 2024) Sustainability and Crises – Challenges and Innovation for Gerontechnology

The ISG 2024 Conference Committee cordially invites you to the **14th World Conference of Gerontechnology** to be held from **2 to 4 September, 2024** at Frankfurt University of Applied Sciences, Frankfurt am Main, Germany.

As we navigate through a complex landscape shaped by global crises, including climate change, conflicts and a post-pandemic, the importance of innovative and interdisciplinary approaches in gerontechnology has never been more evident. The convergence of these challenges necessitates a broader perspective, addressing not only demographic changes but also the implications of contemporary technological progress on resource utilization, energy consumption, and the built environment.

The conference will feature discussions on the implications of those changes for gerontechnology, with a focus on sensor-based systems, artificial intelligence, mixed reality, and robotic platforms. Additionally, we will explore the critical role of design in creating sustainable gerontechnology, buildings, and neighborhoods. Climate change, with its impact on building designs and materials, will be a key topic, as we strive to ensure comfortable living conditions for the elderly amid rising temperatures and climate-related disasters.

Your expertise and insights would greatly enrich these discussions, and we invite you to join us for this significant event. Your participation will contribute to shaping the future of gerontechnology and assistive technologies in response to the challenges posed by the current global circumstances.

Should you have any questions or require further assistance, please do not hesitate to contact us at isg2024@fra-uas.de. We look forward to welcoming you to the 14th ISG World Conference of Gerontechnology and anticipate a fruitful exchange of ideas and insights.

Browse our website www.isg2024.com for conference programme details and any information regarding your travel arrangements.

Sincerely,

Prof. Dr. Helianthe Kort
President of ISG -
International Society for Gerontechnology

Prof. Dr. Barbara Klein
Chair of the ISG 2024 Organizing Committee
Vice-President (ISG 2024)
